

PUBLIC SWINDLED OUT OF MILLIONS

Government Officials Round Up Get-Rich-Quick Financiers and Promoters

MULCTED INVESTORS ALL OVER UNITED STATES

Stock Sold in Companies That Did Not Exist and Money Has Disappeared---Burr Brothers and Tobey Unable to Give Bail Spend Night in Prison.

New York, Nov. 22.—Attorneys for Shelton C. and Eugene H. Burr and Frank H. Tobey, of the brokerage firm raided yesterday are today hustling to get bail for their clients. In spite of Postmaster General Hitchcock's charge that these men have taken \$50,000,000 from the public since 1909, they could not furnish \$10,000 bail when arrested. At the offices of the postoffice inspectors today it was said warrants are in the hands of officials in many parts of the country and numerous arrests are impending.

The United States district attorney's office today began the presentation of complaints to the grand jury so as to get speedy indictments. Twenty girls and twelve men, the office force of Burr brothers, will tell the grand jury what they know about the firm's methods. Mr. Hitchcock is in personal charge of the work and is authority for the statement that the raids have only begun.

The raids were made by agents of the federal government. They are charged with using the United States mails to defraud.

One of the men was reading with a woman Christian Scientist in her studio when he was arrested. He said his arrest had been caused by his enemies, but would not go into details.

The raids were so important that Postmaster-General Hitchcock took charge in person while his inspectors fell on the two concerns which they charge with having swindled the public out of more than \$40,000,000 by fraudulent use of the mails. Sheldon H. Burr, president of Burr Brothers; Eugene H. Burr, secretary and treasurer of the firm; and Frank H. Tobey, its vice-president, were arrested in the first raid, and held in \$20,000 bail each.

The government charges that the firm sold between \$40,000,000 and \$50,000,000 of mining and oil stocks worth little or nothing. Charles L. Vaughn, a director of the Continental Wireless Telegraph & Telephone company, incorporated in Arizona, was taken in the second raid, and held in \$10,000 bail. Inspectors say his company has sold stock to the amount of at least \$1,000,000 which has brought in no return to the investors.

Vaughn is treasurer of the Columbia Finance company, which acts as fiscal agent for the Continental Wireless Telegraph & Telephone company and had charge of the Continental offices in this city.

Both raids are further evidence that the government, in its warfare against alleged interstate swindlers, means business and no longer will be content with issuing fraud orders denying them the use of the mails, but will press for conviction on criminal charges.

Postmaster-General Hitchcock estimates that the public has been fleeced out of at least \$100,000,000 by get-rich-quick concerns in the last five years, but says the hey-day has gone.

The postoffice department intends to keep after them every minute and Mr. Hitchcock said today that other arrests involving corporations that have sought investors the length and breadth of the country, are expected shortly.

After the raid Postmaster Hitchcock gave out the following statement:

"The arrest by postoffice inspectors of the principals in two important companies, Burr Brothers, with offices in the Flat Iron building, and the Continental Wireless company, with headquarters at 56 Pine street, constitute two more cases in the series of investigations that the postal authorities have been making in their crusade against the fraudulent use of the United States mails. With the work accomplished 78 such cases have been brought to a head during the year. It is estimated that the swindling operations of these 78 cases have fleeced from the American people in a period of five years over \$100,000,000.

"The crusade now in progress is the result of a carefully laid plan of some months ago, the first step in which was a thorough reorganization of the inspection service, with the selection of a new chief postoffice inspector and certain changes and reorganization was effected. Owing to the extent of these cases and the large amount of work involved, it was necessary to detail a considerable

CRIPPEN MUST HANG TOMORROW

London, Nov. 22.—The final leave-taking between Dr. Crippen and Ethel Levene took place today in the presence of two wardens. Crippen and the girl went freely, although Crippen tried to cheer her up. His jailers think he will hold his nerve to the finish.

John Ellis, the executioner, made all preparations today, and, according to law, must remain in jail until the hanging is over tomorrow.

CRIPPEN HAS CONFESSED.
London, Nov. 22.—The Times today says Dr. Crippen has confessed. The paper says his confession is a thrilling human document replete with callous details. It is understood Crippen arranged to give the Times his confession in order to get money to provide for Ethel Levene and his unborn child. He also wants part of the money to go to his father, of whose death he will be kept in ignorance.

The Times says he claims to have quarrelled continually with his wife and began to make a confidant of Miss Levene. Finally Mrs. Crippen discovered his relations with the girl and threatened to expose them. He then planned to kill her, by poisoning and tried to divert suspicion by the story of her American trip, which he told the police. He insists Miss Levene knew nothing about this.

MEXICO IN THROES OF A REVOLUTION

Dispatches Received at Washington Confirm Report of the Fall of Gomez del Palacio

NO AMERICANS HAVE BEEN KILLED TO DATE

Bloody Fighting Reported Today Between Rebels and Loyal Troops at Chihuahua---United States Troops are Patrolling the Border.

Washington, Nov. 22.—Private cipher dispatches received here say the Mexican revolutionists will endeavor to capture Chihuahua today, and predict the fall of Pueblo. Agents of the revolutionists are said to be on their way here to present their side of the trouble to the United States government.

Official dispatches here confirm the report of the fall of Gomez del Palacio, but say the government troops recaptured it later. No reports of American killed or wounded have been received.

Speculation is rife today because J. P. Morgan is here. It is said he came to confer with the state department on the protection of American financial interests in Mexico. The Chinese loan may also have had something to do with his visit.

El Paso, Texas, Nov. 22.—Real revolution is now in progress in the state of Chihuahua.

Bloody fighting between loyal troops and insurgents is reported from many places there.

A pitched battle is believed to be impending at Parral, where a band of revolutionists seized a dynamite depot, took all of the explosive and made for the hills. A train load of infantry reached the scene early today and at last accounts were about to attack the miners, who are said to be entrenched.

The governor of Chihuahua, General Luis Terrazas, has reported to President Diaz that an attack upon the city of Chihuahua was expected, but that he was certain of the loyalty of his troops and would be able to protect the city.

All of the telegraph wires in Mexico have been commandeered by the government and a system of censorship arranged. Every effort is being made to minimize the reports of the disorders in the hope that the Mexican revolutionists in the United States can be kept in ignorance of what is going on and so will not try to aid the rebels.

Revolutionists attacked the city prison at Acambaro, Guanajuato, and set free all the prisoners there. Their ranks augmented from this source, they looted the pawnshops and secured arms and ammunition. The party then marched to the municipal palace, and after driving out the officials, blew the safe and carried away all of the funds.

As they were leaving the palace, a detachment of infantry arrived and fighting followed, which soon became fast and furious. Finally the organized mob fled in every direction, leaving many dead and wounded behind.

A force of revolutionists made up of citizens of Durango and soldiers who deserted from the garrison there, was reported today to be besieging Gomez Palacio in the eastern section of Durango. They have declared for Francisco I. Madero for president, and it was expected they would attack the city as they are well armed and have an abundance of ammunition.

Reports received by telephone from the interior declare that troops are being massed by all of the department commanders at every strategic point. Orders have been issued to commanding officers that all insurgencies are to be put down at any cost, and this is believed to indicate bloody fighting in most of Central Mexico within the next few hours.

There is intense excitement in this city, where the Mexican revolutionary junta has its headquarters. United States marshals and secret service men are watching all of the prominent leaders and they have been warned that any overt act will be followed by arrest.

United States troops are patrolling the banks of the Rio Grande to prevent the smuggling of arms and ammunition into Mexico by the revolutionists. This, however, will be a gigantic task, because of the immense amount of territory to be covered. Four companies of the Twenty-third infantry were under arms at Ft. Bliss this morning in readiness to respond to orders to take the field and aid in the patrol work, which were expected from the department commander at any moment.

MEXICAN REFUGEES SEEK SAFETY ACROSS BORDER.

Laredo, Texas, Nov. 22.—Scores of Mexican refugees from Consercion are pouring into Laredo today

from many border points now harassed by both revolutionists and government troops and the city is accommodating nearly a third more than its normal population. Many of the refugees tell stories of skirmishes between rebels and troops, but can give no accurate details of fighting or the results.

News from the interior is very difficult to obtain, so strictly has the government censorship been enforced. However, a report reached here early today of a battle at Camargo in the state of Tamaulipas, between Diaz troops and revolutionists, believed to be acting under the direct command of Francisco I. Madero, now recognized as the anti-Diaz leader. The reports are but meager and details of the fighting have not been obtained.

United States Consul Garrett, at Nueva Lareda, Mexico, said today he had received no accurate reports of the movements of either the rebels or government forces, nor could he confirm the report that Gen. Reyes, the former Mexican general who was sent abroad on a "mission," had returned to join the rebels. There are now over a hundred Mexican and United States federal secret service men in this city, while United States marshals from all over Texas have gathered at this point. No reports of trouble between Mexicans and Americans along the border have been received here.

C. S. TROOPS ARRIVE AT EAGLE PASS, TEXAS

Eagle Pass, Texas, Nov. 22.—United States cavalry troops from Ft. San Houston, San Antonio, have arrived here and at Del Rio. Other troops will be dispatched to the Mexican border, as reports of trouble in the southern republic seem to demand them. Troop L, Third United States cavalry, is here, and Troop K is at Del Rio. After a day of scattered rioting yesterday in many Mexican towns north of Mexico City, the situation today is more menacing than it has been since the first concerted anti-American outbreak.

Resting upon orders from the war department, which came as a result of reports of the state department, General Ralph W. Hoyt, commanding the department of Texas, today is holding the entirearrison at Ft. San Houston in readiness to go to the border. The Southern Pacific, which skirts the Rio Grande, is reported to be holding trains in readiness at San Antonio for an emergency run. The federal officers commanding troops are keenly alive to the situation and their presence practically overshadows the work of the federal secret service operatives, giving the control of the American side of the threatened Mexican revolution into the hands of United States troops.

NO TELEGRAPH NEWS FROM LAREDO JUNCTION.

Laredo Junction, Nov. 22.—This town, the telegraphic gateway between the United States and Mexico, is practically closed today to the transmission of telegrams. Under the guise of official orders from the capital, citing military needs, the Mexican government is demanding the use of telegraph lines to the exclusion of all press dispatches and inquiries.

This move by the government to forestall the spread of news giving fully the situation in Mexico is a step even beyond the strict censorship that has been enforced since the first outbreak of the present trouble. Messages are being handled through Guaymas and El Paso.

Little Problems of The Home.

A Business Man's Thanksgiving.

BUSINESS standards are higher, business ethics better than they used to be. That's something to be thankful for. It isn't so hard to do a clean business and succeed," mused the Business Man.

"Advertising is a big help. You can interest several hundred thousand people, the whole country for that matter if you want to, in your goods. You can show up the fellow who cheats and misrepresents. If you back up your words with the goods, you have the people with you. You can put any situation up to the people, and if they know your word is good, they'll stand by you. It's great to be able to bring the whole country to your door. It means a lot to have such advertising facilities.

"I'm thankful," his thought ran on, "that I don't have to write out all my letters by hand. Great Scott! What a job! With typewriters and telephones and filing systems and a dozen and one other helps a man doesn't need to fritter away a lot of time and energy on details. He can put all his brains into his business. The little things make no drain on him.

"The government is helping the business man, too. It is looking after other things beside politics. It's getting down to everyday matters. Look how it aids the farmer! And it stands right alongside of a man who wants to sell the right kind of stuff and inspects it and puts a brand on it. I don't have to depend entirely on myself to see if the food I buy and want to sell again is pure. The government gives a lift."

The business man's gaze wandered about his luxuriously appointed office and fell upon a pile of magazines. "All sorts of magazines, too, to help me out—magazines that tell the big things the world is doing, and which fill me so chockful of energy and inspiration I want to roll up my sleeves and pitch right into the thick of the game; magazines also that tell me all sorts of helpful things about my line of work. I know what is being done in my line in China or down in Brazil through these magazines."

"Then, there's the markets! Ships and railroads everywhere! A fellow can hustle after business now anywhere he wants to without any great hardship."

Once more his eye roved around his well-appointed office. "I have a convenient place to work in, well lighted, well heated. I come to business at nine. My father went at six. I accomplish more than he did and don't work as hard, not because of any greater ability on my part, but because business evolution has taken much off my shoulders that bowed his down. Dear old dad, with his handicaps! I wouldn't have done half as well as he did. He'd be a wonder with what I've got. None of my doing, either. Just progress."

He rose and stretched himself. "Seems to me I've a lot to be thankful for as a business man in these United States."

Poached Egg Souffles with Cheese. Put in a saucepan one tablespoonful of butter, one tablespoonful of flour, one quarter of a teaspoonful of salt and a dash of cayenne. Set over the fire and when mixed add gradually one pint of milk and stir until thick and smooth. Add one-half of a cupful of grated Swiss cheese and the beaten yolks of three eggs, stir until thickened and set aside until cool. Whip the whites of the eggs until stiff and dry and cut lightly into the cold mixture. Poach six fresh eggs in salted water until set, drain on a cloth and place each on a square of buttered toast. Cover completely with the souffle batter, sprinkle thickly with grated cheese and set in a hot oven until browned.

Veal Loaf. Three pounds of lean veal, one-half of a pound of fat salt pork, one-quarter of a nutmeg grated, one small onion, butter the size of an egg, one-third of a saltspoonful of cayenne, two teaspoonfuls of salt. Chop the meat and onion very fine, mix all together, melting the butter, and adding three well beaten eggs and one-half of a cupful of milk. Form it into a small loaf, sprinkle with fine, dry bread crumbs and bake two hours and a half in a moderate oven. This is equally good hot or cold.

Not Sorry for Blunder.

"If my friends hadn't blundered in thinking I was a doomed victim of consumption, I might not be alive now," writes D. T. Sanders of Harrodsburg, Ky., "but for years they saw every attempt to cure a lung-racking cough fail. At last I tried Dr. King's New Discovery. The effect was wonderful. It soon stopped the cough and now I am in better health than I have had for years. This wonderful life-saver is an unrivaled remedy for coughs, colds, la-grippe asthma, croup, hemorrhages, whooping cough or weak lungs. 50c, \$1.00. Trial bottle free. Guaranteed by F. D. Hall.

Lincoln and Vice President Elect Hannibal Hamlin met in Chicago and for the first time. The introduction was made by George N. Gage of the Fremont House, where they were guests. (The foregoing statement is substantially as telegraphed at the time from Chicago by the Associated Press. Mr. Hamlin's biographer states that the two were alone when the meeting took place and that Mr. Lincoln opened the acquaintance by saying, "Have we ever been introduced, Mr. Hamlin?" "No, sir," I think not," said Mr. Hamlin.)

I eat good, sleep good, and feel like a new man, although I am almost 68 years old. I have been a soldier in the late war of the rebellion, and was badly wounded." CHARLES HOLMES, Private Co. C. A. boys, the coming Friday is woel-

BOYS CONVENTION NEXT SUNDAY

One thousand boys is the mark set
for the big convention meeting of
Sunday. Of course they cannot get
into Taylor Hall, but will meet in the
High School Auditorium at 3 o'clock.
Doors will not be open until 2:45, but
it will be easy to fill the hall in fifteen
minutes and only boys 10 to 19 years
of age will be admitted. Men will not
be admitted.

Dr. Winfield S. Hall of Chicago is
an M. D. and one of the foremost au-
thorities on "the physical life of a boy."
He can speak well and boys like to
hear him. Boys who come late cannot
get in, and boys under 10 years
of age may not come while even boys
of the right age must be supplied with
a ticket of admission. The meeting is
an event of distinct importance in the
life of every boy who can get in and
will be worth hundreds of dollars to
him besides what it will mean in the
way of happiness afterward.

YOUR STOMACH TROUBLE WILL BE OVER WITH

If your meals don't fit comfort-
ably, or you feel bloated after eat-
ing, or you believe it is the food
which fills you; if what little you
eat lies like a lump of lead on your
stomach; if there is difficulty in
breathing after eating, eructations
of sour, undigested food and acid,
heartburn, brash or a belching of gas
you can make up your mind that you
need something to stop food fermen-
tation and cure indigestion.

To make every bite of food you
eat aid in the nourishment and
strength of your body, you must rid
your stomach of poisons, excessive
acid and stomach gas, which soured
your entire meal—interferes with
digestion and causes so many suf-
ferers of Dyspepsia, Sick Headache,
Biliousness, Constipation, Griping,
etc. Your case is no different—you
are a stomach sufferer, though you
may call it by some other name;
your real and only trouble is that
which you eat does not digest, but
quickly ferments and sours, produc-
ing almost any unhealthy condition.

A case of Pape's Diapepsin will

FRAD BROTHERS TO ENLARGE PLANT

The Frad Brothers dyeing and
cleaning business has become too large
for the present quarters and they will
separate the cleaning establishment
and the office.

The manual part of the establish-
ment will be moved to the Phillips
property on the north bank of the
anal between Fifth and Sixth streets
which is being overhauled for the new
business. A large shipment of new
machinery for cleaning and dyeing pur-
chases has been purchased and is now
being installed. The office will remain
at the present location on South
Third street.

The shop is now rushed with orders
and it is almost impossible to get
them all out on time, but under the
new arrangement the firm will be in
a position to handle all the work
promptly.

CAMPED AT FLINT RIDGE FOR A WEEK

Harry Duncan, Jess H. Wilson,
Elmer Leedy, William, John and
Henry Siegel, have returned from a
week's hunting trip at Flint Ridge,
where they were in camp at a nicely
appointed cabin, a professional
chef looking after their wants and
seeing to it that nothing but the best
of meals were served.

Plenty of game was secured and
several exciting coon hunts occurred
during the week. An opossum was
captured and was presented to
Conductor Daniel Leedy of the B. &
O. Jess Wilson tracked a mink one
night into a farmer's chicken coop,
but the fact that the camp enjoyed
fowl the next day for dinner was not
an indication that Mr. Wilson's fin-
gers were gummed for the pullets.
They were presented to Mr. Duncan and
Wm. Siegel by Edward Johnson, re-
siding in the near vicinity, for brav-
ery in stopping a runaway team
which came tearing madly down the
road.

Several of the boys were out one
evening and thinking they saw a
rabbit, got in close proximity to
something else and their camping
companions locked them out and
wouldn't recognize them until they
had borrowed complete new outfits
in the way of clothes. The campers
all had a jolly time and returned
home with the determination of
again seeking the Ridge for their
camp the next season.

The Meat, Grocery and Coffee Man

FLIES IN THE OINTMENT CHANGE THE ODOOR THEREOF

Spurious Additions to the Word of God Condemned.

Cleveland, O., Nov. 20.—The Wise Man declared that a fly in the precious ointment would cause it to stink. We apply this suggestion to the Word of God, the precious ointment which God has supplied. Certain flies (falsehoods) creep into it during the Dark Ages, which are now causing a loathing and repudiation on the part of many of the best and wisest people in the world. All will admit that it is sinful to tamper with the Word of God—to either add to or take from it or to wrest or twist or pervert its meaning. Why is it, then, that ministers of the Gospel, who know that certain passages of the Scriptures are not to be found in the older manuscripts, fail to show to the people the truth on this subject? And if these ministers are not fully informed, whose fault is that? Would it not be preferable that they should absent themselves from some of the fairs and festivals and social functions, in order to inform themselves?

On what pretext are the clergy a specially privileged class, except for the purpose of giving their flocks reliable information along religious lines? And what is their commission from the Lord, except that they should feed the flock of God, which he purchased with the blood of his own dear Son? If the flock have been feeding upon certain Scriptures supposed to be genuine, and if they have been made sick thereby, and if their shepherds now know that these Scriptures are not a part of the Divinely inspired Word, why should not God's people be informed of the facts and be stopped from eating poisonous elements introduced by the Adversary?

Poison in Our Bibles.

The more others are silent, the more we must speak. We cannot see God's sheep spiritually sick without warning them respecting their spiritual food. Not only have we received many misinterpretations of the parables and symbols of the Bible, but into our Bibles themselves certain false statements have been injected—long centuries ago. All well-informed ministers of the Gospel know that our New Testament was not translated from the writings of the Apostles, but from copies thereof. These copied over and over again, no matter how carefully, were liable to errors. And in addition, as we might expect, occasionally, a bold transcriber would add a few words to make the record conform to the better to his conception of what it ought to be. This went on for centuries before the art of printing came into use.

The New Testament was translated from the Greek into the Latin language, and was known as the Vulgate. From that Latin translation sprang our various English translations—the Douay or Catholic edition, published in 1609 A. D., and the King James Bible, or Common Version, published in 1611 A. D. The latter was merely a revised translation, to assist in which revision other previous translations were used, and we are assured that the text was diligently compared with the Greek text. But until lately there were no ancient Greek manuscripts with which to compare it. The Greek manuscripts with which it was compared numbered only eight, none of which dated earlier than the Tenth Century. Today, however, we have three very old Greek manuscripts of the New Testament, namely, the Alexandrian MS., the Vatican MS., and the Sinaitic MS. Of these, the Vatican MS. was the first to come to the attention of modern scholarship. It is in the Vatican Library, appearing on its catalogue as far back as 1475 A. D., which manuscript scholarship accredited with having been written in the fourth century. Next came the Alexandrian MS., which is supposed to have been written about the middle of the fifth century. It is now on exhibition in the British Museum. Finally, we have the Sinaitic MS., which is in possession of the Russian Government. It was found by Constantine Tischendorf in a Mt. Sinai Convent, from which it takes its name. It is accredited with a date of about 350 A. D. Of these three oldest MSS. of the New Testament known in the world, the Vatican and Sinaitic are the older.

Assuredly nothing should be considered as part of the original Scriptures that is not found in any of these three oldest MSS. Why should we not tell this to the people? Why should we not inform them that some of the most confusing texts of the Bible are not found in these old manuscripts? Is it not a sin to preach doctrines as from God which have no part in these early MSS.? This is our thought. From time to time it will be our pleasure, as well as our duty, to teach the common people what the clergy already know on this subject. Moreover, the Bible Students Association of Brooklyn has arranged for the importation of copies of the New Testament bound in cloth showing the variations between the readings of these old Greek MSS. and our Common Version. The usual price of these is \$1.00; but importing them in large quantities, they are able to supply them post-paid at 50c. each.

Consider Now Our Text.

"Go ye into all the world, and preach the Gospel to every creature. He that believeth and is baptized shall be saved; but he that believeth not, shall be damned."—Mark xvi, 15.

One of the most important of these interpolations or poisonous additions grafted upon the Word of God is in the sixteenth chapter of Mark, all of which, from the ninth verse to the end of the chapter, is spurious—fraudulent. It is additional to anything that St. Mark wrote, as evidenced by the fact that these verses are not found in any of the three oldest Greek MSS.

Of course some of the items of these verses are found in other Gospels. It would never do to add a lie without a certain amount of covering of Truth to sugarcoat it! But notice our text and what a wrong thought it gives—inconsistent with the remainder of the Scriptures. Its intimation is that the preaching of the Gospel to every creature will result either in his believing it and being baptized, and thus being saved, or in his disbelieving and being damned. And this word damned carries with it, in the light of other misunderstandings, fire and blazings, roasting and torture, shrieking and woes indescribable. This is all wrong—contrary to the authentic Scriptures.

The authentic Scriptures inform us that this Gospel Age is one in which God is gathering from the world a "little flock" of footstep followers, saintly and elect, to constitute the Bride of Christ—his joint-heirs in his coming Kingdom. They show that not all are expected to hear this message at the present time—not many wise, great, learned or rich, but chiefly the poor. They assure us that to have the hearing ear is a special favor, saying, "Blessed are your ears for they hear, and your eyes for they see." St. Paul tells us that the world in general is blind and deaf to the message now sent forth (Romans xi, 7), and the experiences of eighteen centuries corroborate this. St. Peter tells us (Acts xv, 13) that God's work in the present time is not the conversion of the world (which certainly is not being accomplished) but that he is now taking out of the world a people for his name (to bear the name of Christ, as his Bride). The authentic Scriptures everywhere teach us that the poor, blind, deaf world, which has never yet heard fully and clearly of "the only name given under heaven or amongst men whereby we may be saved," is not on this account condemned or damned. They tell us that the whole world was born condemned, because children of Adam and sharers in his condemnation, but that God has provided in the sacrifice of Jesus a redemption for Adam and all his race. They tell us that, as a result, in God's due time, Christ, as the true Light, the Sun of Righteousness, shall enlighten every man that cometh into the world. They explain that God is now calling out a special class while the darkness is upon the earth and the gross darkness upon the heathen, and that the Sun of Righteousness, which is to enlighten the whole world, will not arise until the elect Church shall first be gathered out. They tell us that, in the New Dispensation yet to dawn, all the families of the earth will be blessed through The Christ—Jesus, the Head, and the Church his Body or Bride. They tell us that then "all the blind eyes shall be opened and all the deaf ears shall be unstopped" (Isaiah xxxv, 5). They tell us that then the Sun of Righteousness shall arise with healing in his beams, flooding the whole earth with the light of the knowledge of the glory of God. They assure us that that will be the period of Messiah's reign, for which we pray, "Thy Kingdom come; thy will be done on earth as in heaven." They tell us that the object of that reign will be that the world in general may have a trial to determine whether, with the light and knowledge and experience then granted, they will choose God and righteousness and the reward of eternal life, or will choose sin and its penalty, the Second Death.

Unbelievers Damned Already.

Our word *damned*, from misusage and the bad theology of the Dark Ages, has a sulphurous odor, whereas its plain, simple meaning is the same as the word *condemned*. Adam was damned or condemned 6000 years ago because of his disobedience. And all his children, by heredity, share his weakness and thus share his condemnation. But Adam is not condemned or damned to eternal torture nor to Purgatory. The Bible distinctly says in so many words that his sentence, his condemnation, his damnation, is to *death*. "In the day that thou eatest thereof, dying thou shalt die" (Genesis ii, 17, margin). After his disobedience, God said, "Unfit is the earth for thy sake. Thorns and thistles shall it bring forth unto thee. In the sweat of thy face shalt thou eat bread until thou return unto the ground from which thou wast taken; for dust thou art and unto dust shalt thou return" (Genesis iii, 17-19).

This general sentence has rested upon all of Adam's race from that day until now. As St. Paul declares, By one man's disobedience sin entered into the world and death (not eternal torment nor Purgatory) as a result of sin and thus death (not eternal torment nor Purgatory) passed upon all men, because all are sinners (Romans v, 12). Jesus came to redeem two classes—the Church and the world—the Church class to be his "Bride" and to share his heavenly, spiritual Kingdom with him; the world to be blessed and restored to human perfection and to an earthly Eden, world-wide—God's footstool made glorious. The Church and household of faith, willing to walk in the footsteps of the Master in the dark, have been called during the past nearly nineteen centuries. Soon the

worthy ones, the "little flock," will enter into the joys of their Lord, at his Second Coming. The marriage of the Lamb shall come, for his Wife will have made herself ready (Rev. xix, 7).

Then the world's salvation will be due to begin. The Times of Restitution will be the thousand years of Messiah's spiritual reign as King of kings and Lord of lords. Fleshly Israel, we are assured, will then be restored to Divine favor and become the special and active agents of the Messianic Kingdom in the distribution of the Divine favors to all the families of the earth. In the end all the incorrigibly wicked, who love iniquity rather than righteousness, will be destroyed.

Thus, as the Apostle declares, the sacrifice of Jesus constitutes a satisfaction for our sins (the Church's sins) and not for ours only, but also for the sins of the whole world (1 John ii, 2).

Nonsensical, Spurious Context.

Let us briefly notice another absurdity in the addition to God's Word found in the last twelve verses of St. Mark's Gospel, fraudulently added and not found in any of the oldest Greek MSS. Notice the statement, "These signs shall follow them that believe: in my name shall they cast out devils; they shall speak with new tongues. They shall take up serpents; and if they drink any deadly thing, it shall not hurt them. They shall lay hands on the sick and they shall recover" (verses 17, 18). The majority of Christian ministers and their congregations seem not to be troubled by the fact that they do not have these evidences of their relationship to the Lord, and they do not attempt to heal the sick, to speak with tongues, and would not dare to drink any poisonous thing. But there are certain conscientious people, the very cream of all the Churches, who are greatly perplexed by these words because they know that they are not true in their experience. With them, therefore, it is a matter of feeling doubtful about their own salvation, or a question as to the reliability of the Bible as a whole. They need to have the relief which we now seek to give them. They need to know that these are not inspired words, but poisonous and injurious additions made during the Dark Ages. They may, consequently, look elsewhere in the Scriptures and find the proper assurances of their relationship with God being demonstrated by the fruits of the holy Spirit in their lives and in their hearts—"meekness, gentleness, patience, long-suffering, brotherly kindness, love."

Miracles in the Early Church.

This spurious passage of our text is used by many ministers who know, or ought to know, of its falsity. But they have a certain theory in their minds to the effect that the miracles and unknown tongues of the early Church were lost by reason of unfaithfulness to God, and that Christians today should seek for their recovery. Not having any Scriptures to support their claim they use this interpolation and allow their hearers and readers to believe it to be the inspired message. To what length have people gone in support of human theory! The first principle of preaching should be to preach the Truth, the whole Truth and nothing but the Truth. Every theory which requires bolstering up by spurious passages should be abandoned, and will be abandoned by those who are honest truth-seekers, "Bereans."

Our Lord performed miracles. So did his Apostles. And so did those of the early Church upon whom the Apostles laid their hands. But no others have this gift. Consequently, when the Apostles were dead and when all those upon whom they had laid hands of blessing were dead, these miracles in the Church were at an end. We all see the propriety of this. Miracles were appropriate at the beginning for the establishment of the Church and, for a time, were necessary for their encouragement. In their early meetings they had no source of information aside from the Apostles, whom they rarely saw or heard. They had no Bibles—no copies of the Gospel nor of the Epistles. They needed the very arrangement which God provided—tongues and interpretations of tongues, etc., to draw them together and to instruct them until, in due time, the canon of Scripture would be completed that, through it, the man of God might be thoroughly furnished unto every good word and work (1 Tim. iii, 16, 17).

By the time the Apostles died the Church had become established, had regular meetings, pastors and teachers, the Gospels and Epistles, and some of them had begun to develop the fruits of the Spirit. Thus the early Church naturally outgrew the tongues and miracles and entered a larger sphere, just as a child loses its swaddling clothes in favor of more suitable attire. For God's people today to desire to go back to speaking with tongues, etc., such as was practised, and very profitably, in the early Church, would be like an adult person desiring to be dressed and treated as a babe. It is our understanding that the speaking with unknown tongues in religious meetings, which is gradually spreading over the world, is a deception being practised upon earnest children of God, who are deceived by the fallen angels—the *demons* of the Bible. They are thus enslaved to error and have their attention drawn away from the Truth. To what extent the ministers of Christ of today are responsible for the delusion of these poor people is not ours to determine. Had the spuriousness of the last verses of St. Mark's Gospel been duly pointed out from every pulpit, as soon as the old MSS. were known, some, at least, might have been spared from this snare—some who, under misunderstanding, have been hindered from proper expectations in respect to God's Word and led improperly to expect the power of tongues and miracles suggested in this spurious passage.

OBITUARY

ORVILLE DAY LOUGHMAN.

Orville Day Loughman, son of John and Sarah A. Loughman, was born Sept. 21, 1873, died in Denver, Colo., Nov. 7, 1910, aged 37 years, 7 months and 16 days. He is survived by one sister, three brothers, a half sister and three half brothers. The boyhood and early manhood of the deceased were passed in this vicinity, which continued to be his home until about the age of 25 years, and during the last 12 years his abode has been in Denver and other far western points. But little has been heard from him while he was employed there, other than his engagements with transportation and transfer companies. The associates of his school days remember Orville Loughman as a bright boy and a pleasant companion. They recall his good nature, his genial disposition and helpful ways. With growth to manhood came industry, his disposition and a willingness for constant employment, with ambition to always do his work well. He had membership in some of the best benevolent and fraternal organizations of the county and enjoyed the companionship of his brothers in the order and was appreciated by them. The best of hospital care and treatment was provided for him in his last illness by his fraternal brothers of the order of Woodmen of the World in the city of Denver, who freely manifested their appreciation of his qualities of head and heart. Bereaved friends have the consolation of knowing that the all-wise Father who takes away life harsh and to comfort, to resurrect and to restore in a new and better life, has plucked to the children of men in his boundless mercy he doth all things well.
